

How do you feel about

THE AIME PROJECT?

"Watching the positive impact that AIME has brought to the children's lives, has truly made me a believer in the program"

—Kipp B.

The AIME Project has afforded us the opportunity to expand our therapeutic services into rural areas, to better meet the need of our clients. I am certainly grateful to be able to witness our staff touching lives, one at a time."

— Louis W.

"The services my children have received, has been a blessing. they are better able to focus in class and get along with other children. This program is a God sent."

—Kellie W.

"Mrs. Christa, and Mrs. Rachel, and Dr. Shuman are the Best!"

—Damari D.

THE AIME PROJECT

✓ Awareness

✓ Integrate

✓ Mobilize

✓ Educate

**COMMUNITY
BASED PROGRAMS**

Meeting families where they are...

The **AIME** project is designed to improve behavioral health outcomes for youth with Serious Emotional Disturbances (SED) and young adults with Serious Mental Illness (SMI) and their families to live a life of recovery and independence.

The **AIME** philosophy is to:

Awareness to the individuals we serve of the services and supports that are available to them in their communities.

Integrate family and youth peer support in multiple levels in their communities to build and sustain systems of care that lead to a life of recovery and independence.

Mobilize services and supports with easy access to youth and their families with SED/SMI outside of clinic settings.

Educate community partners, stakeholders, youth, families, child and adult serving agencies on a System of Care to sustain partnerships and realize a return on investment of SOC effort.

Cool facts of what **AIME** can do for you!

- Transportation
- Link to food and community resource banks
- Assist young adults with finding jobs
- Assist young adults with obtaining GED and/or high school diploma
- Educate families & community partners about behavioral health
- Case Management
- Family Advocacy
- Attend LIPT meeting with families
- CPS-P & CPS-Y (Certified Peer Specialist Parent & Youth)
- Educate families on diagnosis
- School based therapy and CSI services
- and much more...

Goal 1: Promote and provide access to a family-driven, youth guided, culturally competent and trauma-informed comprehensive system of care to meet the needs of youth and young adults with SED/SMI

Goal 2: Facilitate effective communication, coordination, education and training within the larger system of care and among local, regional and state child serving systems and expand Services and Supports based on SOC Philosophy and approach.

Goal 3: Develop, maintain, and support a culturally competent, trauma-informed workforce to meet the needs of children, youth and young adults with SED/SMI and their families.

Goal 4: Develop financing strategies to support and sustain a comprehensive SOC Plan anchored in cross-agency commitment to effective and efficient spending.

Goal 5: Utilize a person-centered, team based approach to improve and sustain positive mental health for local community youth and young adults with SED/SMI including clinical and functional outcomes, increases in behavioral and emotional strengths, and reduction in suicide attempts.
