

Hearts of Our Heroes

by Lisa Montford

Team QP

The workforce at QP are heroes, hands down! They have been on the front lines from the onset and throughout the COVID times of uncertainty that we have and continue to face. On a daily basis, they have been selflessly available to provide reassurance and support to those we serve as well as to their co-workers. With the unit census changing daily, they have remained mindful of all potential risks involved, followed set guidelines/protocols, and worked through challenges while continuing to advance forward in carrying out the overall mission to help others help themselves. To summarize, Team QP's tenacity and perseverance have been evident through their efforts for the good of others under some of the most demanding circumstances that have been tossed our way. Team QP members are truly Heroes with Hearts today and every other day!
