## MISSION STATEMENT

Providing quality innovative behavioral healthcare in a recovery-based environment.

## CORE VALUES

Quality  
Professionalism  
Person-Centered  
Recovery-Oriented  
Teamwork  
Improvement

## PHILOSOPHY

When we deliver services to individuals in ways that promote and protect valued lived experiences, individuals will be better supported and able to live a meaningful life within their community. We further strive to provide easy access to high-quality, recovery-focused care.

Recovery occurs in many different pathways and it is our privilege to instill hope, optimism, and a belief in recovery for those we serve, no matter the path chosen. It is our charge to encourage community-based services that provide access to relationships and resources that enhance an individual's well-being.

We believe this leads to individuals living self-directed lives with personal goals and aspirations unique to them. When we see individuals thriving in their community and achieving their personal goals and aspirations, we know we have achieved our mission.
