

Founder

Stronger Together was founded in 2020 as a chapter of National Federation of Families by Amber Wilkes, MS, CPS-P in conjunction with Community Service Board of Middle Georgia. Amber is a mother of two children, both of whom have a diagnosis. She was motivated through her own experience to create a community where parents wouldn't have to feel isolated on their journey. She wanted to provide a safe space for families to tell their stories and find support and resources to benefit the entire family.

Mission

The Stronger Together Chapter of the National Federation of Families is comprised of local parents and children's mental health advocates. We serve our local communities by advocating for mental health services for children and support for their families. We are motivated by our passion and our experience. It is our goal to create an environment that normalizes mental health treatments and generates a nurturing, supportive environment. We add value to our families by letting them know they never have to fight alone again. No matter what they have struggled through we are here and we understand their struggle.

Philosophy

We are founded as an organization to provide support for families and advocacy for children. We will maintain a supportive environment filled with love and appreciation for our families. It is our philosophy that all children are wonderfully unique and deserve the best care possible.
