

ADSS

Community Support Service

Addictive Disease Support Services

Specific to adults with substance use disorders, Addictive Diseases Support Services (ADSS) consist of individualized 1:1 substance use recovery services and supports which build on the strengths and resilience of the individual and are necessary to assist the person in achieving recovery and wellness goals as identified in the Individualized Recovery Plan.

1. Assistance to the person in facilitation and coordination of the Individual Recovery Plan.
2. Relapse Prevention Planning to assist in managing and/or preventing crisis and relapse situations.
3. Individualized interventions through all phases of recovery (pre-recovery preparation, initiation of recovery, continuing recovery, and relapse).

What You Can Expect From Your Case Manager:

- Provide services in home or community
- Meet with you 2x per month
- Visits will be Mon-Fri between 9AM and 4AM
- Help you identify strengths which may aid in achieving and maintaining recovery from substance use
- Provide support to facilitate and enhance natural supports
- Assist in skills training to help you self-recognize emotional triggers and self-manage behaviors related to the substance use disorder
- Assist with personal development, work performance, and functioning in social and family environments through teaching skills/strategies to reduce the effects of substance use disorder symptoms
- Assist in enhancing social and coping skills that reduce life stresses resulting from substance use disorder
- Facilitate removal of barriers and swift entry to necessary supports

Services are provided with the understanding that when individuals do experience relapse, this support service can help minimize the negative effects through timely re-engagement/intervention and, where appropriate, timely connection to other treatment supports
